

Dear Parents,

Due to new regulations in the state of California, anyone volunteering in the classroom at a preschool or daycare must be immunized against **influenza, pertussis, and measles**. A **TB clearance** must also be provided.

A person is exempt from the requirements of this regulation only under any of the following circumstances.

- 1) The person submits a written statement from a licensed physician declaring that because of the person's physical condition or medical circumstances, immunization is not safe
- 2) The person submits a written statement from a licensed physician providing that the person has evidence of current immunity to the diseases described above.
- 3) The person submits a written declaration that he or she has declined the influenza vaccination. This exemption applies **only** to the influenza vaccine.
- 4) The person has provided evidence of a current tuberculosis clearance.

Please bring the records from your physician to the preschool office so that we have everything on file. If you have any questions, please do not hesitate to call.

We value parents in the classroom and as soon as we have your paperwork we hope you will sign up to volunteer.

---

I \_\_\_\_\_ agree to follow the regulations for volunteering
